

COMMAND OIL SPILL TRUSTEE COUNCIL

c/o U.S. Fish and Wildlife Service
2800 Cottage Way, Suite 2605
Sacramento, CA 95825

FWS/EC-03-020

January 3, 2003

Ms. Mary Burns
Director
County of San Mateo, Parks and Recreation Division
455 County Center, 4th Floor
Redwood City, California 94063

Dear Ms. Burns:

Thank you for providing the Command Trustee Council (Council) with information on the Fitzgerald Marine Reserve Seal Cove Trail Improvements and Interpretive Signs Project. Based on the selection criteria in our scoping document, the Council has evaluated your proposal and requests additional information on your proposed project. Specifically, we are interested in any detailed plans or drawing on the projects, a breakdown of estimated costs, and additional information on the structural soundness and long term sustainability of the trails and retaining walls. Are there any plans to add interpretive signs to educate the public about the impacts of trampling sensitive vegetation?

Information you provide will be used to assist the Council in developing and writing the Draft Restoration Plan/Environmental Assessment. The trustee council will be meeting again on January 14, 2003. If possible, we would like to have this additional project specific information by January 9th so we can review it before our meeting on the 14th. If you have any questions please contact Charlene Hall at 916-414-6600. Thank you for your interest in the Command Oil Spill Restoration Project.

Sincerely,

for David L. Harlow
Acting Field Supervisor

FWS/EC-03-021

January 3, 2003

Ms. Julia Bott
Executive Director
San Mateo County Parks and Recreation Foundation
215 Bay Road
Menlo Park, California 94025

Dear Ms. Bott:

Thank you for providing the Command Trustee Council (Council) with information on the Mirada Surf Acquisition Project. Based on the selection criteria in our scoping document, the Council has evaluated your proposal, and requests additional information and detailed plans on your proposed project. Specifically, we are interested in whether you plan to improve the parking lot and public access on the west side of the freeway and if you have specific plans and information on these types of activities. Additionally, if we were to contribute funds towards the acquisition of the parcel, would the San Mateo County Parks and Recreation Foundation be willing to accept certain restrictions on how the funds could be spent (direct funding to certain tasks, etc)?

Information you provide will be used to assist the Council in developing and writing the Draft Restoration Plan/Environmental Assessment. The Council will be meeting again on January 14, 2003. If possible, we would like to have this additional project specific information by January 9th so we can review it before our meeting on the 14th. If you have any questions please contact Charlene Hall at 916-414-6600. Thank you for your interest in the Command Oil Spill Restoration Project.

Sincerely,

David L. Harlow
Acting Field Supervisor

Subject: Request for Additional Information on the Moss Landing Management Area Improvement Project

Dear Mr. Page:

Thank you for providing the Command Trustee Council with restoration project proposals and for providing comments on the 'Command Oil Spill Public Scoping Document for Restoration Planning.' Both your comments and project proposals will be considered during the preparation of a Draft Restoration Plan/Environmental Assessment (RP/EA). The Draft RP/EA will be made available at a later date for public review and comment, and we will add your name to our current mailing list.

We have screened all comments, received to date, and would like to hear more about your proposal to improve the Moss Landing Management Area. Specifically, we are interested in the following:

1. Description and explanation of how the proposed project would specifically meet selection criteria listed in the Command Public Scoping Document.
2. Estimated project costs and a description of the financial and regulatory feasibility of the project.
3. More detailed description and explanation of the benefits that would be derived from the restoration proposed to those injured resources addressed in the Command Public Scoping Document.
4. Contact information identifying personnel who can answer questions about your proposed projects.

Information provided will be used to assist the Council in developing and writing the Draft RP/EA, and the process for final project selections will be outlined in the Command Final Restoration Plan. If you have any questions please contact Charlene Hall at 916-414-6600 or visit the "Command" website at: www.darcnw.noaa.gov/command.html or www.dfg.ca.gov/ospr.restorations.html. Thank you for your interest in the Command Oil Spill Restoration Project.

Sincerely,

David L. Harlow
Acting Field Supervisor

*Hello David,
In response to this letter
I have finally produced
the enclosed information.
While probably too late,
better to produce this again
rather than nothing.
Sorry for being so slow
to respond.
Sincerely,
Gary Page*
